

# MRIDUL AGRAWAL, PE

## PRINCIPAL, DALLAS MANAGING DIRECTOR

Mridul currently serves as a Principal, Dallas Managing Director and the Health Sector Practice Lead, a role in which he helps grow the firm with his many unique abilities. He can connect with anyone and understand their needs, whether they're current clients or potential new ones, and deliver an immensely technical engineering product while being one of the most approachable people you'll ever meet.

Mridul has a breadth of Project Manager & Electrical experience previously working at an international MEP firm. He is a well-known expert in the design of sustainable healthcare environments, bringing a client-centric focus to developing. During his many years in the business, he has touched virtually every aspect of the project lifecycle—from planning to delivery—with a strong focus on design, project management, and operations.

Mridul loves to learn and take on new challenges, but he also naturally teaches those around him. He is known for his uncanny ability to recall specific codes and uses his immense knowledge of regulatory compliance requirements to help save clients' money and time on projects.
